SICK, SICKER, BETTER.
WAR? NO, READY? YES.
SHAMING DIME NOVELS.
GIANTS UNKNOWN.

LAST Saturday Wall Street was
sicker. Yesterday morning it was
sicker. Yesterday afternoon it sud-
denly brightened up and prices
rose.

This time it is the turn of Har-
vard college, through its "Economic
society," to predict "that the period
of uncertainty in commodity mar-
kets will not be prolonged."

The lambs will pray that this will
not be the prelude to another drop.

MANY BROKERS THAT know
enough to gather in commissions
without gambling could sing yester-
day "happy days are here again."

Total sales, \$270,600 shares, the
biggest day since the great wind of
16,000,000 and 10,000,000 and 12,000-
000 shares day. At the last moment,
bears, trapped, lost their money.

That's a small comfort for the
little lambs that came home from
Wall Street leaving their "bank-
rolls behind them."

James L. Garvin, thoughtful
Britisher, says, "Fear is the
greatest cause of peace."

Fear causes war sometimes,
perhaps. A white rat will bite
if frightened.

But it wasn't fear that sent
Napoleon on his way to Russia,
or Genghis Kahn eastward, or
Attila into France.

We have war because we are
still animals, savages, bar-
barians, only 12,000 years from
the late stone age.

Any country as rich and
tempting as this, if it has any
intelligence at all, will be carefully
abstain from war, but keep
ready for it.

YESTERDAY, ON THE little
island of Elba, off the Italian coast, a
small group celebrated the 109th
anniversary of Napoleon's death at
St. Helena, prisoner of the British.

Elba, Napoleon's first island
prison, remembered his death with a
grand high mass, and a demon-
stration of bread to the poor, the
money supplied by Prince Demidoff
in his will.

The word "enough" did not exist
in Napoleon's vocabulary. He
intended to use France as a base,
as Alexander had used Macedonia. He
meant to establish his real empire
in Asia, and planned, quite seri-
ously, his own future as a convert
to Islam, riding around on an ele-
phant.

It is an excellent thing to have
that word enough conspicuous in
your vocabulary.

Some Wall street mourners know
that.

YOU MAY HAVE seen the statue
of Lavoisier, behind the big Made-
line church, near the flower market
in Paris. France will give his statue
a thorough spring cleaning this
year, so that his name will be read
by tourists to whom his name will
mean nothing.

He was one of the world's great-
est physicists and chemists, an able
astronomer, and a really great phi-
losopher.

The French revolution chopped
off his head, because he was faith-
ful to his King Louis XVI. The
French republic honors him, and so
it goes.

Great men that have built up
science, civilization and human
knowledge, are as little known as
the great trees that dropped in the
forests ages ago.

FRIENDS WILL
HOLD MEETING

Salem Delegation To Go To Beloit
For Damasc Quarterly
Meeting This Week

The first Friends church, of Sa-
lem, will be represented at the ses-
sions of Damasc Quarterly meet-
ing of Gurney Friends, which will
be held this week end at Beloit
Friends church.

Rev. Samuel Mosher, of Cardin-
ton, superintendent of Ohio Yearly
meeting, a trio of young men from
the Cleveland Bible institute, and
Mr. and Mrs. Philip Frazer, Indians
from Oklahoma, are among the
visitors expected. Mr. and Mrs.
Frazer will speak at the Sunday af-
ternoon service.

The quarterly meeting will open
Friday afternoon with the Ministry
and Oversight session. A public
service for worship will be held Sat-
urday morning followed by the busi-
ness session in the afternoon.

Rev. Miller To Speak

Rev. H. L. Miller, of Fort Wayne,
Ind., and Rev. E. I. Osgood, a re-
turned missionary, will speak at the
Christian church Wednesday eve-
ning, when this church holds a re-
ception for the new members.

SEAPORT WIPED OUT AS WAVES RUSH OVER CITY

Many Survivors Homeless
After Disaster In
Burman Area

PUBLIC BUILDINGS
ARE ALL DESTROYED

Famous Ancient Structure
Sustains Damages In
Indian Tragedy

(By The Associated Press)

RANGOON, BURMA, May 6.—
The Exchange Telegraph agency
said today the entire town of Pegu
had been wiped out by an earth-
quake and subsequent tidal wave,
with the number of dead estimated
at 1,000.

The town presents a desolate pic-
ture, with public buildings and
homes destroyed. Practically the
entire population is homeless.

The municipal building, the banks
and the government school at Pegu
were virtually in ruins and many
other buildings were badly damaged.

The market was burned out and
the whole town presents a spectacle
of ruin.

The roof of the famous Shwe-
Dag Pagoda, an ancient
structure 324 feet high was dam-
aged. Of public buildings, the po-
lice commissioner's office and the
secretariat were badly damaged and
had to be closed.

The town of Pegu is about 45
miles northeast of Rangoon on the
Bangon river. It is an important
port and much of Burma's exports
pass through it. The place rates as
one of the most important seaports
of British India. In 1921 it had a
population of 18,700.

The town is said to have been
founded in 537. About the middle
of the 18th century it was destroyed
but again grew to its present
size.

Special programs were given at
Reilly and Columbia at schools
Monday in observance of National
Music week. The celebration is be-
ing sponsored by the Music Study
club.

Mrs. Forest Gray sang a group of
songs, accompanied by Mrs. E. E.
Dyball. Miss Grace Dyball con-
tributed a group of piano solos. Mrs.
Coy and Mrs. Dyball are members
of the Music club.

The concert at the high school
auditorium Monday evening was
well attended. City band mem-
bers of the high school band, the
Transylvania Men's Choral soci-
ety, among them Salem's most
talented musicians.

Present Overture
The overture, "Martha" by the
band was a feature together with
solo numbers by Mrs. L. D. Cesena,
contralto; Erwood Slater, Mrs.
Frank Stoudt, and the Hundert-
mark trio, composed of Mr. and
Mrs. John Hundertmark and son.

The Transylvania Men's Choral
society was complimented for the
selections offered.

Accompanists on the program
were Mrs. Paul Covert and Mrs.
Hundertmark.

Members of the study club en-
tertained at an assembly of high
school students at the school au-
ditorium this morning.

BOARD TO MEET
FRIDAY NIGHT

Construction of Bleachers, Wall
At Reilly Stadium Will Be
Discussed In Session

Construction of concrete bleachers
and a concrete and brick wall
on the east side of Reilly athletic
stadium will be discussed at a spe-
cial session of the board of edu-
cation here Friday night.

City Engineer F. S. Barchhoff,
retained by the board to draft plans
and specifications for the im-
provement, submitted preliminary
plans at the board's meeting Mon-
day night.

No action was taken on the pro-
ject by the board pending the com-
pletion of Barchhoff's plans.

Willaman Unable To
Speak At Banquet

Sam S. Willaman, head football
coach at Ohio State university, will
be unable to address members of
the Salem High School Alumni as-
sociation at its annual banquet in
June.

Willaman stated in a communica-
tion received here today that his
duties as chairman of the univer-
sity commencement committee
makes it impossible for him to ap-
pear at the banquet.

Final plans for the banquet will
be formulated at a meeting of com-
mittees appointed at a recent meet-
ing, at the high school Thursday
night.

Coles Is Candidate
For County Coroner

Dr. Edwin A. Coles of Salem is
the latest entrant into the Republi-
can primary contest for nomina-
tion to a county office.

He is getting signatures for his
declaration of candidacy for the
office of coroner. To date there is
no other contestant for this office
in the northern part of the county.

NATION DRIVE AGAINST BREW UTENSILS SEEN

Supreme Court Ruling To

Manufacturers

(By The Associated Press)

WASHINGTON, May 6.—The pro-
hibition bureau may undertake a
nation-wide drive against the ven-
dors of paraphernalia used in con-
nection with the traffic in illicit li-
quor.

Officials of the bureau today were
engaged in a close study of the su-
preme court's decision declaring
such equipment subject to seizures
when offered for sale so as to at-
tract purchasers who intend to uti-
lize it in the unlawful manufacture
of intoxicants.

Assistant Secretary Lowman of
the treasury department, said he
believed the court's decision pre-
sented the enforcement unit with
effective weapons to be used in com-
bating the bootlegger who manu-
factures his own wares.

AUTOMOBILE DEATHS

Some surprise was occasioned in Washington a day or two ago when the war department issued a bulletin presenting figures to show that the casualties suffered by the United States during the World war were not so heavy as those caused by automobiles in time of peace. The bulletin was such a departure from the ordinary as to cause speculation regarding the purpose of the department in issuing it; some were inclined toward the opinion that the department was engaged in propagandizing in favor of stricter traffic control.

Inquiry developed the fact that figures similar to those given out in Washington, which applied to the District of Columbia only, had been sent to all the states to show that the horrors of war, so far as casualties were concerned, were less than those resulting from the use of motor vehicles in time of peace.

During the World war there was an average of 54 deaths monthly among those from the District of Columbia who entered the army, while the automobile is exacting an average of 9.6 deaths a month in peace time. While these district figures given out by the war department are misleading, for the reason that the number of men from the district at the front or in camps here at home was small compared with the total population, they will serve a good purpose if they call attention to the constantly rising number of victims of motor cars.

It is something of a coincidence that the same day the department gave out its figures, returns from seventy-eight large cities of the United States showed 605 automobile deaths during the four weeks ended April 19 of the present year, as compared with 526 deaths for the four weeks ended April 20, 1929; while for the fifty-two weeks ended April 19 of this year the deaths numbered 8,675, compared with 7,657 deaths during the fifty-two weeks ended April 20 in 1929, giving a death rate of 26.4 to 100,000 against a death rate of 23.3 to the same population during the similar period the year before. This represents an increase of thirteen per cent during the fifty-two weeks.

In New York city alone there were ninety-four automobile deaths in the four-week period ended April 19 this year, against eighty-seven in the like period ended April 20 last year, while the total automobile death toll in that city during the fifty-two weeks ended the day before Easter this year were 1,349, compared with 1,081 during the fifty-two weeks ended April 20, 1929.

Although it is true that we have had frequent reports of deaths due to motor cars daily from all parts of the country, they have not impressed the public as did the massed figures showing our casualties in the World war. But when the war department shows that the deaths from the automobile in time of peace greatly outnumber, in monthly average, the casualties of war, it may have the effect of so diverting public attention to the awful peace-time record that some benefit will result.

RECORD BETTERED

A great deal of excitement attended the recent speed records established by the German ships, the Bremen and the Europa. Even when the latter clipped a few minutes from the fleet Bremen's mark it was considered a matter of considerable importance. It is therefore, rather strange that when the Santa Clara, a turbo-electric ship of the Grace line, cut thirty-six hours from the past previous time from New York to Cristobal the achievement was not given more attention. The Santa Clara is an American ship built at Camden by the New York shipbuilding company. Designed

by Americans and built by Americans it is an admirable illustration of what this nation can do upon the seas if given a chance.

The Santa Clara, designed to make eighteen knots, averaged nineteen in her trials and is reported by her master to have done better than twenty-one on her maiden voyage to Latin America. As a matter of fact the ship was so far ahead of the existing record that her speed was cut to sixteen knots in latter part of voyage. The usual time to the Canal Zone is in the neighborhood of a week compared to the four days and thirteen hours made by the Santa Clara.

A twenty-knot liner is no great significance on the North Atlantic, but there has been none among southern-going ships up to the present time. Ships of the type of the Santa Clara will cut five days from the time between New York and Valparaiso, a saving of extreme importance to commercial travelers. Transportation of this nature between the southern Americas and New York will enable voyagers to reach Europe more quickly by coming north and crossing the North Atlantic than by the direct steamship services.

The Jones-White merchant shipping act is responsible for the construction of the Santa Clara. The results have been good. They have demonstrated that the United States has a place on the seas, both as a voyager and a shipbuilder.

What Others Say

THE BOYS HAND THEMSELVES ONE

Last May two congressmen, wangling their way through the customs agents by insisting on special privilege, were subsequently charged with importing liquor. During the late spring and summer, other congressmen, refusing to wait in line, elbowed their way through their ordinary fellow-passengers in spite of the fact that they had no claim to better treatment. When asked about their attitude some of these statesmen grew quite stuffy about it and said that what they, as public servants, did to the public regulations was "nobody's business."

When public exasperation at this un-American performance was high, Senator Pat Harrison, of Mississippi, introduced an amendment to the tariff law providing as follows:

"No courtesy of the port, free entry or special privileges or preference in the examination of baggage shall hereafter be extended to any person whatsoever who is subject to the payment of customs duties."

This would clearly cover congressmen returning from pleasure trips. It was in every way a sensible provision, designed to restore some degree of democracy to the customs formalities.

But now a group of congressmen, sitting as the house and senate tariff conference committee, have deleted this provision. Is there any good reason why they should do so? The senate, as every one will admit, spent time enough on the tariff bill to give it mature consideration—and the Harrison amendment passed the senate. One would be reluctant to think that the main reason for deleting the amendment was to enable congressmen to enjoy a privilege denied to their constituents. But what other reason can there be?—New York Herald Tribune.

HEALTH

By Dr. Royal S. Copeland

SHINGLES
A reader in Ohio has asked me to write about shingles, that very painful malady. Of course, I am glad to do so.

Shingles is the popular name for the disease known by doctors as "herpes zoster" or "zona." In some parts of the country it is called "tetter." I suppose it was called "shingles" because of the regularity of the red spots and blisters. Their arrangement is not unlike the regular overlapping of the shingles on a house.

The disease may occur in children, in young adults, or in the aged. In the case of old people it is a serious ailment and may persist for a long time.

It has uncomfortable symptoms. It begins with pain, something like neuralgia. It may occur in the side, the neck, the shoulder, or on one side of the head.

The most common spot likely to be affected is the skin over the ribs on one side of the body. The pain follows the course of one of the nerves. The real trouble lies in the root of the nerve, although the disturbance is shown all along the course of the nerve. It usually starts at the spinal column and goes half around the body, like half a girdle.

The eruption is in the form of vesicles or blisters as large as a pea or bean. It occurs in groups of three or four to 20 spots. The surrounding skin is red, sensitive and intensely hot and puffy.

The nerve which goes upward from the eyebrow to the crown of the head may be involved. This is a more serious thing. The eye becomes inflamed and blisters may form on the front of the eyeball. These may leave scars which affect the sight.

Shingles used to be regarded as a disease due to exposure to cold or damp weather. Nowadays the cause is looked for in infection from abscessed teeth, pusy sores, diseased tonsils, or some intestinal or other infection.

The blisters should be protected from the rubbing of clothing. Alcohol may be applied but care must be used not to break the blisters. Such applications relieve the pain. With the help of good food, sunlight and fresh air the health can be improved. Cod-liver oil is a good thing to take. But you should follow the advice of your doctor. He will make a study of your case and treat it accordingly.

The patient should remain in bed and keep from worrying and fretting. While it lasts, the malady is a painful one and everything should be done to make the patient comfortable.

A force

Whirls away the
harmful wax to give
Sohio Motor Oil its
controlled
viscosity

Stubborn stuff—this non-lubricating, harmful wax. Lubrication experts long despair of breaking its strangle hold on motor oil. Then Standard of Ohio engineers found a way.

First the finest paraffin base crude is chilled to 40° below zero. Then it is whirled in specially designed separators; whirled with a force 13,000 times stronger than the force of gravity. And . . . out flies the harmful wax.

This is one step . . . and an all-important one . . . in a long series of painstaking processes which make it possible to control every element composing the viscosity, or "Body", of New Sohio Motor Oil.

This "Controlled Viscosity" is your assurance that, summer or winter, you will get these advantages in New Sohio Motor Oil:

TOUGH BODY—Stands up under the strain and heat of modern high-speed motor operation.

FLEXIBLE BODY—positive lubrication in summer heat or winter cold.

SMOOTH BODY—an oilier oil, free from non-lubricating wax—provides perfect piston seal and prevents loss of power.

PURE BODY—contains the very minimum of carbon forming elements.

Make a real test of this modern oil in your motor. You'll be delighted with the results after you've drained out the old and put in a fresh crankcase-full of New Sohio Motor Oil . . . wherever you see the Red-White-and-Blue Sohio signs, and you see them everywhere in Ohio.

GUARDIANS MUST REPORT IN COURT

Judge Riddle Finds Many Are Delinquent; May Be Removed

LISBON, May 6.—Guardians, executors and administrators who failed to file an account within a year after they have been appointed are to be removed for failure to comply with the law, it has been stated by Probate Judge Lodge Riddle.

There are hundreds of such open cases now on the probate court docket, and during the last few weeks official notices have been sent all delinquents.

Many have replied to the court that they knew nothing of such appointment, but it followed that after the cases have been investigated, the guardians, executors or administrators are shown proof of such appointment and even the signatures of such appointees.

No allowance for service will be allowed any executor, or administrator who fails to file an account within 30 days after being notified of his delinquency, and after such executor or administrator is compelled to file the account, the court has authority to discharge such executor or administrator and name a successor who will comply with the law.

STUDENTS HELD AFTER ROBBERY

Aged Man Beaten When Resisting Burglars; Money Recovered From Four Criminals

WILMINGTON, May 6.—Accused of having beaten Ernest Hale, 56, music teacher, at his residence on the old Cincinnati pike and robbed him of \$5,500, Carl Jones, 19, a senior in Wilmington high school; Fred Spear, 22, manager of a Wilmington book shop; Robert Grogan, 18, dairyman, and Raymond Hale, 17, a high school junior, were arrested here early today.

According to police the youths have admitted the robbery. The money was taken from the aged man has been recovered from the youths, police said.

Hale was severely cudgeled with a lead pipe last night when the robbers entered his property and he attempted to resist them. He will recover.

According to police, Spear, who was to have furnished an alibi for his companions, went with them to Washington Court House where the money taken from Hale was divided.

Young Hale, a nephew of the victim, is held in city jail, while the other three are confined in county jail here.

SENATE OFFICES ROBBERY SCENE

Victim Blames Detectives For Going Through Files, Papers

WASHINGTON, May 6.—Investigation and conjecture today followed the disclosure that the offices of three senators had been entered and rifled and a few small articles stolen.

The offices were those of Senators McKellar and Brock of Tennessee, and Smoot of Utah. The loot reported consisted of four pens and a desk pad, although McKellar also said that his desks, files and papers had been ransacked.

He told of the incident in the senate late yesterday, saying it occurred Saturday night and blaming "secret service agents" as the "probable" marauders.

McKellar recently brought to the attention of the senate a letter from Assistant Secretary Dixon of the interior department to one of President Hoover's secretaries urging the appointment of Judge John J. Parker, a North Carolina Republican, to the supreme court as a "master political stroke." The Parker nomination has since become the subject of a heated senate controversy, which is now in progress.

W. H. Moran, chief of the secret service, denied the senator's assertion regarding his agents.

CATHOLICS MEET FOR EUCHARIST

FORMER INSANE MAN MURDERER

Confesses To Slaying In Cleveland After Four Hours Of Grilling

CLEVELAND, May 6.—Police announced today that they had obtained a signed confession from Charles E. Scoville, 37, former patient at the Massillon state hospital for the insane, to the murder of Mrs. Nellie Cummings Kerr, 63-year-old nurse.

Scoville was arrested last night not far from the abandoned theater building on the west side where Mrs. Kerr's body clothed only in a man's overcoat, was found yesterday morning. Police said he admitted strangling her to death in a fight because she objected to dirt in the suite where he told her he was going to make his office.

The slaying occurred April 13, according to Scoville's confession. He said he became acquainted with Mrs. Kerr, widow of a hardware merchant when she visited him seeking employment as caretaker of his supposed office.

Scoville, a grocery salesman, had been missing since the killing. He said he had been living in Way-farers' lodge, according to police.

He confessed after four hours of questioning that he had choked Mrs. Kerr to death with one of her stockings. Removed her clothing in the hope of preventing identification and then tossed the body down a stairway where it laid until yesterday, police announced. He said he was an inmate of the Massillon institution about 20 years ago.

The Norwegian government is paying the expenses of Mrs. Anderson to America and return.

GUARDSMEN NOT RUNNER VICTIMS

Men Died Of Exposure, Is Report Of Coroner; Inquiry On

TOLEDO, May 6.—Official inquiry into the death of three coast guardsmen who perished in Lake Erie while cruising for rum runners was scheduled to start today under the direction of Lieut. M. W. Rasmussen of Buffalo, district coast guard commander.

The investigation was to have begun yesterday, but was delayed in order that coast guardsmen might concentrate on the search for the body of John S. Hay, first class motor machinist. Bodies of the other two victims, Chief Boatwain Gardner D. Young and William Pratt, chief machinist's mate, have been recovered from the lake.

Theories that the trio might have been killed by rum runners were discounted by the finding of Coroner C. J. Veisley of Ottawa county that Young had died from exposure and exhaustion.

Methodist Board Leader Up For Investigation Before Committee

WASHINGTON, May 6.—The senate lobby committee today turned its inquisitorial talents upon the nation's outstanding dry organizations, seeking a thorough explanation of their activities in behalf of the prohibition laws.

It took up the charges of representative Tinkham of Massachusetts, a militant wet, that Bishop James Cannon, Jr., chairman of the Southern Methodist church's board of temperance and social service, did not account for all the funds contributed to bolster the anti-South cause in Virginia during the last presidential campaign.

Tinkham, in urging this investigation, told the committee that E. C. Jameson, a New York capitalist, contributed \$65,300 to the Virginia campaign and that Cannon, who was chairman of the anti-Smith committee in that state, had accounted for but \$17,000 of this amount.

Jameson was summoned to the committee's witness stand today for questioning on his contributions. Cannon is to be called later.

Jameson was described by Tinkham as "the largest single contributor to the Hoover campaign." Reports showed, he said, that the New Yorker had donated a total of \$172,000.

Today's Pattern

THIS chic little frock is unusually becoming with its diagonal bodice and corresponding skirt lines. The long scalloped collar creates a slender effect while the slim skirt pleats afford freedom and grace.

Pattern 1722 makes up beautifully in printed cotton or silk fabrics such as pique, shantung, pongee, broadcloth, shirting, Jacquard silk, etc. White pique is used for the collar.

May be obtained only in sizes 14, 16, 18, 20, 22, 24, 26 and 28. Size 14 requires 3 yards of 35 inch fabric and 3/4 yard trimming.

No dressmaking experience is necessary to make this model with our pattern. Yardage for every size, and simple, exact instructions are given.

SENATE CHECKS ILLINOIS FUNDS

Senatorial Race Reports Not Correct, Rumors Are Circulated

WASHINGTON, May 6.—The senate campaign funds committee today prepared for an early trip to Illinois and a personal investigation of charges that the candidates in the recent Republican senatorial primary there spent more money than their reports to the committee showed.

Representative Ruth Hanna McCormick, who won the nomination, told the committee that her expenditures totaled \$252,500. All her own money, and Senator Deneen, her defeated rival, reported expenditures of \$24,000.

The committee, however, has received charges that more than these amounts were expended. For the present it is holding them confidential and special investigators are making inquiries in Illinois.

Senator Nye, the chairman of the committee, made this known late yesterday, and at the same time, he said that S. Davis Wilson, campaign manager for Gifford Pinchot, who is a candidate for the governor in Pennsylvania, has charged irregular registration of voters in that state.

A complete cessation of business today accompanied the strike of many thousand Gandhi followers throughout India. Schools and colleges were closed and students refused to participate in examinations for the bar which were to have been given at Delhi.

The virtual state of armed authority continued at Peshawar.

Workshops Closed

Dispatches from Bombay stated that the workshops of the great Indian peninsula railway at Matunga had to be closed because the employees were prevented from returning to work after the midday meal by Gandhi demonstrators.

The people of the village of Aat celebrated the arrest of the Mahatma by proceeding en masse to the shore and collecting salt. From Navari the authorities received information of a great public meeting presided over yesterday by Mrs. Gandhi and the Mahatma's son Manilal, who told their followers that by arresting Gandhi the government has put them to the test again.

Manilal said that if the faithful discarded their wickedness and became firmer in their resolve, India would become free again and the "holy one" would be released. Other wise their slavery would be further extended by 150 years and they would not be able to see Gandhi again for, even if released, he would not want them and would prefer death.

NO DANGER IN MARKET SALES

Bankers Who Rushed To Aid When Trouble Came Last Year Vision No Break

NEW YORK, May 6.—Bankers, who last fall organized to go to the aid of the stock market, professed today to see no cause for alarm in speculation which brought a record turnover of \$279,200 shares for the year and set 250 new ones for the same period.

They pointed out that where the market was demoralized to the verge of a breakdown last fall, trading yesterday was orderly although the volume of business was the fifth largest in the history of the exchange and the highest since last Oct. 30, when 10,727,320 shares changed hands.

Speakers for the bankers said the behavior of the market yesterday was regarded as largely professional with comparatively little participation by the public.

KING OBSERVES ANNIVERSARY

Ascended To Throne Of England 20 Years Ago, At Races

LONDON, May 6.—King George, celebrating the 20th anniversary of his accession to Britain's throne, left Buckingham palace this morning to attend the races at Newmarket today and tomorrow. It was the first time his majesty has been to a race meeting since his serious illness of 1928-29.

The races he will see includes the Newmarket classic with a 2,000 guinea stake.

King George was up early and attended to some state and official business before beginning his trip. He looked over the flood of telegrams and letters of congratulation on the anniversary, and then participated in the only ceremony of the day, presentation of medals to members of his household staff who had been with the royal family for a long time.

Crowds outside Buckingham palace watched the picturesque changing of the guards and heartily cheered the king as he drove through the palace gates to the race meeting. It was said that he would remain at Newmarket for the entire meeting, returning to London Friday.

"DANGEROUS PARADISE"

At The State

A good story, Nancy Carroll's talent, and Richard Arlen's personality are three features which make "Dangerous Paradise," which opened its three day run at the State theater last night, one of the most enjoyable entertainments to reach this town in some time.

"Dangerous Paradise," Nancy Carroll's first starring film, is a real moving picture, strengthened and supported by clever dialog. A tropical background for the throbbing love story intensifies the gripping adventure.

Nancy Carroll is seen as a girl musician, playing in a South Sea island orchestra. Menaced by her employer and the hotel proprietor, played by Clarence H. Wilson and Warner Oland, respectively, she seeks safety on a nearby island where Richard Arlen, a recluse, lives alone. Adventure follows adventure as Nancy falls deeply in love with the scornful Arlen. How her daring sacrifice finally awakens a reciprocal love in him makes a moving episode, a delightful ending to a splendid picture.

Grand Theater

"ISLE OF ESCAPE"

The undulating grace of a bevy of attractive hula dancers is one of the interesting features of "Isle of Escape," the Vitaphone production which stars Monte Blue, and is now playing at the Grand.

The scene is the barroom of a thatched-roofed hotel in the South Sea Islands, with the room thronged with Malays, Filipinos, Hawaiians, Chinese, and the few white residents of the island.

The half dozen native dancing girls go through their gyrating movements to the music of an Hawaiian quartet of musicians, and the entire scene is colorful in the extreme.

Monte Blue's supporting cast in this film includes Myrna Loy, Betty Compson and Noah Beery.

"Loose Ankles," an attractive tale of a girl who is bequeathed a million dollars provided she marries the man her aunt stipulates in her will she must, is an added attraction at the Grand. It is an all-talking opus with Loretta Young and Louise Fazenda as stars. The picture is good despite Douglas Fairbanks, Jr.

Two Hundred Athletes Expected For Big Ten Contests Here

THE DAY In Sports

NIGHT EVENTS POPULAR
SCHEMELING LOOKS GOOD
GRADE SCHOOL BASEBALL

WITHIN A PERIOD of two weeks there will have occurred in this 20th century era of athletics a series of events of unprecedented importance to the future of the world of sports. Thirteen days ago Salem High's athletic association sponsored what is believed to have been the first outdoor night track and field meet in American interscholastic history. Last Friday night there was held the night baseball game between Wichita, Kansas and Des Moines, Ia., while tomorrow night Reilly athletic stadium will again be the scene of an after dark track and field meet.

AT NEW CASTLE, PA., Friday night of this week, another new experiment will be tried, that of spring football under floodlights. New Castle's crack football team, coached by the peerless Phil Bridenbaugh, undoubtedly one of the Keystone state's outstanding high school coaches will clash with Youngstown Cheney, a school which promises to develop some of Ohio's strongest football teams in the future.

THE PARTICIPANTS in these various events aren't of great importance to fandom in general for athletic officials throughout the country have been watching for some time the outcome of night athletics. Here in Salem, night football, as it has in New Castle, has passed the experimental stage while the after dark baseball game was every bit a success. The spring football idea, however, is one that is entirely new and will in all probability draw fans from all over the tri-state district.

HERR MAXIE SCHEMELING, who, the majority of fight experts say, will be crowned with the heavyweight pugilistic tiara following a certain evening next June, vindicated the statements of many who predicted that he is in splendid condition for his leather-swinging engagement with one John Cukeschay. The German admitted that he is in the best shape of his meteoric career on his arrival at Gotham docks and shyly commented that he will be the victor in the titular engagement.

DESPITE THE FACT that Schemeling is considered a "foreign threat" by many more than 90 percent of those who condescend to enter the concrete bulwark of Yankee stadium at so much a head will be backing him to win. The German has a pleasing personality that makes friends fast and those who know both him and Sharkey intimately laud the former as the better crowd-pleaser of the two. Indeed, it is no secret that Sharkey has a disposition that only a mother could love.

Hoping to bring baseball back into popularity with the younger set, kiddies aspiring to honors as gladiators of the ball and bat are being gathered by Joe Kelley every Saturday morning in the Salem grade school league for games at Centennial park and Columbia school grounds. The circuit consists of eight teams, some of which play games Friday afternoon and others the next day.

New Batting Record Set At 103 Come Up

ST. LOUIS, May 6.—A modern major league record was broken and a National league record equaled in the second game of Sunday's bargain bill between the St. Louis Cardinals and the Brooklyn Dodgers.

The new mark was set when the Cards and the Robins went to bat officially 103 times the Dodgers with 102 and the Red Birds with 51. The all-time record was made June 9, 1883, when the Boston and Detroit nationals batted 110 times but the more recent record was 99 times between the New York Giants and the Cincinnati Reds on June 9, 1901. The National record, which was equaled, was by the Red Birds employing 22 players, the same as was used by the Phillies against the Cards on Sept. 16, 1926 and by the same club against the Dodgers May 17, 1929.

Preliminary Events To Be Held In Afternoon; Finals Start At 7:30

WITH more than 20 athletes entered from each of nine schools in the Big Ten Interscholastic Athletic association, a field of approximately 200 contestants is expected to compete in preliminary and final events of 15 contests scheduled in the association's first annual track and field meet here Wednesday.

Preliminary events will be held starting at 3 o'clock in the afternoon to eliminate contestants and narrow competition in 10 events down to eight athletes. No preliminaries will be held in the mile or half mile runs, the 440-yd race, half mile or mile relay.

Night events will get under way promptly at 7:30 p. m. and are expected to be over not later than 10 p. m. The last event is scheduled to take place at 9:45.

Dressing room accommodations will be furnished visiting teams at Reilly grade school located at the south end of the playing field. An information booth will be located at the east booth of the field entrance where numbers, programs and other equipment will be available for visiting coaches.

Competing athletes with their coaches will be served a training meal at the Memorial building following preliminary events. The

What The Stars Did Yesterday

HORACE FORD, Reds—Hit triple and three doubles, drove in four runs and scored two as Reds trounced Braves, 10-6.

VERNON GOMEZ, Yanks—Yield Whitesox to five hits and beat them 4-1.

BILL WALKER, Giants—Held Pirates to six hits and smashed homer with bases filled as Giants won, 9-1.

AL SIMMONS, Athletics—His fifth homer of the season in 12th inning enabled A's to whip St. Louis, 4-3.

MILT GASTON, Redsox—Stopped Indians' winning streak with seventh pitching performance, Redsox winning 18-3.

American Golfers Arrive In Britain

PLYMOUTH, ENGLAND, May 6.—Members of the American Walker cup team reached England today on the Mauretania. All disembarked except Bobby Jones, who remained aboard and proceeded to Southampton. He expressed the opinion that the team's prospects were good.

Athletics Return To First With Indians After Tribe Takes Drubbing In Boston

(By The Associated Press)
Connie Mack's Philadelphia Athletics have overcome the spotty play that marked their early-season efforts and vaulted back into the lead in the American league race.

Al Simmons' fifth homer of the season enabled the A's to register their fifth successive victory at the expense of the St. Louis Browns yesterday, 4 to 3 in 12 innings. Lefty Grove, A's ace southpaw, was pounded for three runs in the first two innings but Joe Boley hit two home runs and Mule Haas one to tie the score by the end of the sixth inning. Five and one-half innings of scoreless baseball followed before Simmons broke up the game.

Victims of vicious batting attack at Boston, the Cleveland Indians fell back into a tie with the Athletics for the league lead. Four Indian pitchers were pounded for 23 hits as the Red Sox won 18 to 3, and snapped Cleveland's winning streak of six straight. The game was decided in the fifth inning when the Red Sox fell on Hudlin, Shaute and Miller for nine runs. Milt Gaston allowed the Indians seven scattered safeties.

The Washington Senators suffered their third straight defeat, losing to Detroit 3 to 1, in a tight pitcher's battle between Lloyd Brown and Lefty Hogsett. Both went out in the eighth inning with the Tigers leading 3-1 and there the score remained.

Vernon Gomez, Pacific Coast league recruit, gave up only five hits as the New York Yankees won

their third straight game from the Chicago White Sox, 4 to 1. Willie Kamm's home run in the second inning accounted for the White Sox's only run. Lazzeri hit for the circuit of Caraway in the eighth.

In the National league, the New York Giants went back into first place with a 9 to 1 triumph over the Pittsburgh Pirates. Bill Walker was the whole show for the winners. He gave up only six hits, and hit for the circuit with the bases filled in the fourth inning.

Cincinnati pounded Burleigh Grimes for six runs in the first five innings and easily beat the Boston Braves, 10 to 6. After tallying once in the third inning, The Reds fell on Grimes for five runs in the fifth. Boston came back with five off Red Lucas in the first half of the sixth but the Reds put the game on ice in their half with four runs off Brandt. Horace Ford had a great day at bat with three doubles and a triple.

St. Louis and Brooklyn had an off day and the Chicago Cubs played only one inning of their game with the Phillies before rain halted hostilities.

NEW YORK — A golden blonde with perfect color scheme is the choice of Leo Quanchi, portrait painter, for the most beautiful woman in America. He is to show his portrait of Dorothy Hall, actress at a Paris exhibition. He describes her hair as of spun gold, eyes sky blue, cheeks pink, lips a rich red and teeth dazzling.

In a debutante it's Charm

in a cigarette it's Taste

MANY FINE QUALITIES make up the "charm" that is Miss America's, but her genuine wholesomeness appeals most of all.

IN A CIGARETTE, TOO, the real appeal is wholesomeness of taste.

WITNESS CHESTERFIELD'S popularity, growing every day. No flash in the pan, but enduring popularity, earned by giving smokers a cigarette of better quality, richer aroma and finer fragrance, blended and cross-blended to just one end... "TASTE above everything".

We state it as our honest belief that the tobacco used in Chesterfield cigarettes are of finer quality and hence of better taste than in any other cigarette at the price.

HOME-MAKING HELPS

By Wanda Barton

If every kitchen were equipped down, but also she has acquired a revolving stool with a back to it, so that she can relax her whole body while her arms are left free to swing the iron.

Standing constantly at work is purely a habit—and it's a rather irrational one. No more reason why one should stand up while scraping carrots or washing dishes than for a typist to stand while strumming her keyboard. True, the office worker frequently tires of sitting too much, but standing all day is even more fatiguing. And the houseworker has the great advantage of having so many varied jobs that she can change her position at will.

By deliberately changing one's working position until new habits are formed, it's possible to dispel a most entire that fatigues three-fourths of the time. A high stool at the sink will develop the habit of sitting while preparing vegetables or washing dishes. Her own ingenuity will suggest to the housekeeper many other jobs which can be performed while sitting instead of standing.

STYLE EDICTS

PARIS, May 6. — Moderation marks Milady's wear for spring and summer in spite of what one thought was going to happen when the first collections appeared. Careful analysis of new fashions shows that exaggeration has been avoided and smart moderation is the rule.

There is not too much skirt nor too little. Clothes fit snugly but are not really tight. They are comfortable and chic at the same time. Fabrics are rough or smooth as one wants them and every color goes as long as it is pretty and becoming.

A most successful daytime ensemble in green and white checked woaden shows this smart moderation. The sleeves of the blouse serve as sleeves to the cape coat too, the latter having only an elbow-length cape and no other arm covering. The skirt is pleated in clusters and the blouse has a "bustle" joke.

Bright Pompeian red and beige checked tweed makes another moderate ensemble. The dress has a belt of broad waist and one-piece skirt completed by a girlish cape-coat.

Dora Duby, popular American dancer, has been seen in Paris recently wearing a most "moderate" brown ensemble with one-piece frock having white georgette collar and long coat trimmed with fox fur. It is one of those delightful white polka-dotted materials.

Patons wear navy taffeta for a most charming moderate frock with bodice bloused in front forming a

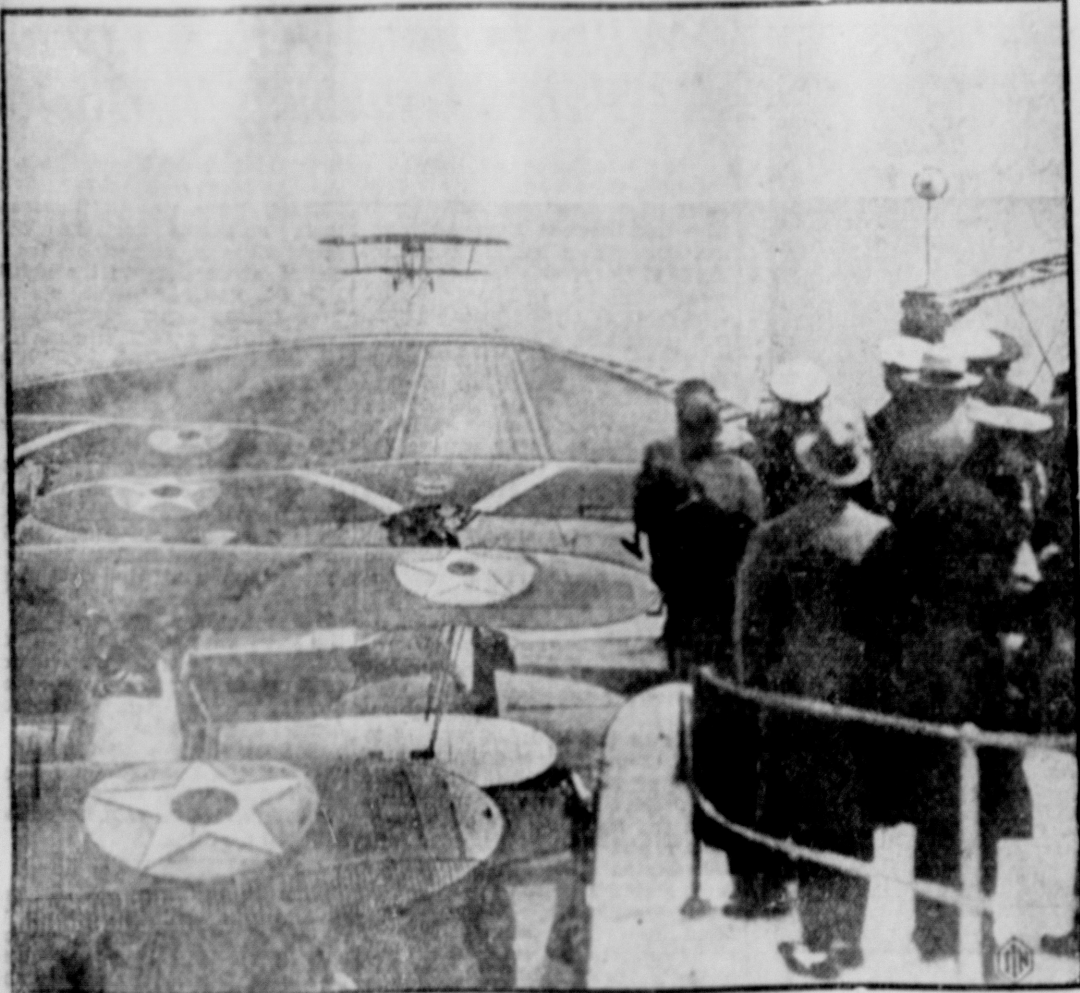

loose bolero at the back. There is a rose-satin gilet and the collar and cuffs are of fine handkerchief linen.

More than moderate is a dark green alpaca model with collar and cuffs of the same material in ivory. There is no other trimming.

Austrian soldiers who patrol the bank of the Danube river have been equipped with foot pontoons with which they can walk or propel themselves on the surface of the water.

Not much of a run needed before this Vought Corsair land-plane leaves the deck of the U. S. S. Lexington to take part in the mimic naval warfare off the Virginia coast. In the foreground can be seen some of the sixty-eight other planes which took part in the maneuvers while at the right are some of the Congressmen and military officials who watched the theoretical naval battle.

Mother Held in Mysterious Family Demise

Father died—then son died, then the daughter died—in the Long Beach, California, home of Mrs. Mary Hartman. Death came so suddenly to each that authorities believe there is something inexplicable about their deaths. For this reason Mrs. Hartman, wife and mother, was being questioned in a Long Beach jail while workmen prepared to remove from the graves the bodies of her husband, Cliff Hartman, and her son, Henry. The daughter, Ruth, died recently from what the authorities believe to be arsenic poisoning. Their mother is being held on suspicion of having caused their deaths. WINONA

Fifth and sixth grades of Winona district school, taught by Mrs. Crumbaugh, held a wiener roast at the home of George Prather, Thursday evening.

George Gooderham of Mount Union college, former pastor of the Methodist church here, visited friends here Friday.

School Closes
 The Friends school, taught by Miss Louisa Stanley of Mooresville, Ind., closed Friday with a program of recitations, dialogues and other interesting exercises. Lois Holloway and Jessie Dewees asked the audience to guess while they acted out advertisements. "Two in one" was amusingly demonstrated by Edgar Holloway driving Ruth Oliphant and Harold Sidwell across the stage each occupying one leg of a large pair of overalls.

The base ball game by the pupils against the adult team was won by the pupils.

Mrs. Charles Antram entertained Larkin club associates at an all day meeting with dinner at noon at her home two miles west of Winona, Friday. Quilting for the hostess occupied the time. The next meeting will be with Mrs. Stella Fuhr.

Approximately 100 guests enjoyed the church social given by the members of Mrs. Sara Stewart's class of boys, Friday evening.

The entertainment consisted of games and contests.

Konjola Puts Speedy Finish To Indigestion

Grateful Man Strongly Praises New Medicine As He Tells Of His Experience

MR. ADAM KASPER

"Konjola certainly did more for me than any medicine I ever tried in my search for something to relieve me of indigestion," said Mr. Adam Kasper, 3200 West Forty-third street, Cleveland. "No matter what I ate, no matter how light my diet, after every meal came gas, and pains. Constipation, too, added to my misery, and I was worn out, tired all the time and miserable because my system was filled with poisons and impurities."

"A friend told me about Konjola and insisted that I try it. I had lost all faith in medicines but he was so insistent that I made up my mind to give Konjola a chance. The results exceeded my expectations, for today my stomach is performing as it should and constipation has been thoroughly relieved. I do not wonder that Konjola has more than a million friends. I can easily understand why Konjola is the most talked of medicine in America."

When taken for six or eight weeks, Konjola, the new and different medicine, will work wonders that will astonish those who suffer from the stubborn ills of the stomach, liver, kidneys and bowels and from rheumatism, neuritis and nervousness.

Konjola is sold in Salem, Ohio at The J. H. Lease Drug Co. Three Stores, and by all the best druggists in all towns throughout this entire section.—Adv.
